Getting Balonne's fair share

Our plan to Get Australia Back on Track

A fair share for the regions

An LNP Government will deliver guaranteed funding for regional, rural and remote Australia through a new dedicated \$20 billion fund to tackle local challenges like fixing local roads, better access to local services and create a strong and sustainable future for our towns.

Better access to childcare, health & aged care

We deserve access to quality services in our towns. As part of our historic investment in regional Australia, the LNP will invest in better access to childcare services, train more doctors and invest in building more aged care facilities.

Affordable & reliable energy

The LNP will unlock our massive reserves of Australian gas to drive down prices, and invest in a balanced, long-term energy plan - that includes safe, clean and reliable nuclear energy. Our energy plan will be 44% cheaper than Labor's and make sure regional Australia doesn't become littered with industrial wind turbines and solar panels.

Thank you for your continued support. I will keep fighting for Balonne's fair share.

Cost of living relief

If elected, we will save you on average \$14 a tank of fuel by halving the fuel excise for 12 months - an immediate saving compared to Labor's 70 cents a day tax cut in 15 months.

Labor's cost of living crisis also hurts at the supermarket checkout. Our plan will ensure Australians get a fair go from the farm gate to your plate. We'll keep the big supermarkets honest with stronger penalties and an independent Supermarket Commissioner to make sure they're doing the right thing.

Fix the housing crisis

Our plan will unlock hundreds of thousands of new homes by investing in water, sewerage and road works that hold developments back. We will also ban foreign investors and temporary residents from buying existing homes and put a stop to out-of-control migration levels and building regulation.
